PROFESSIONAL SUMMARY

Motivated and detail-oriented MERN Stack Developer with hands-on experience in developing responsive and user-friendly web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in frontend development, REST APIs, Firebase, database management, Git/GitHub, and UI/UX design. Experienced in developing real-world projects and exploring technology-driven solutions through research. Strong problem-solving ability with a focus on clean code, responsive interfaces, and continuous learning.

LEADERSHIP & INITIATIVE

Founder & Project Lead – PawGuardian India

Pursuing a long-term vision to build a technology-driven ecosystem for animal care, rescue, and welfare.

CAREER OBJECTIVE

To obtain an entry-level position in Web Development / MERN Stack Development where I can apply my technical and creative skills, contribute to real-world projects, solve practical problems, and grow as a professional software developer.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), REST APIs

Design & UI/UX: Figma, Canva, Prototyping, Wireframing, User Research

Tools & Platforms: Word, Excel, Git, GitHub, Vs Code, Android Studio, PowerPoint

Databases: MongoDB, MySQL, Firebase/Firebase

Creative Skills: Art, Voice Dubbing & Content Creation

PROJECTS

PawGuardian India – Stray & Injured Animal Reporting Platform

- Developed a MERN Stack web application and Android app using Kotlin for reporting stray and injured animals.
- Implemented animal reporting, rescue tracking, Firebase authentication, and data management features.
- Technologies: MongoDB, Express.js, React.js, Node.js, Firebase, Kotlin

Gym Management System – Gym Administration Platform

- Developed a MERN Stack web application for managing gym members, subscriptions, and daily operations.
- Implemented member management, authentication, membership plans, and administrative features.
- Technologies: MongoDB, Express.js, React.js, Node.js

Luxe Restaurant Website & QR Code Ordering System

- Developed a responsive restaurant website with modern and attractive UI/UX.
- Implemented digital menu, reservation, and customer interaction features.
- Technologies: React.js, Firebase

ProjectHub – Student Project Sharing & Ordering Platform

- Developed a platform where students can browse and order academic projects according to their requirements.
- Implemented project requirements, user authentication, and project management features.
- Technologies: React.js, Firebase

RESEARCH PUBLICATION

PawGuardian India: An AI-Powered Smart Animal Care and Rescue Ecosystem

International Journal of Science, Engineering and Technology (IJSET)

Published: July 11, 2026

- Co-authored a research paper proposing an AI-powered smart animal care and rescue ecosystem.
- The research focuses on lost-pet reporting, nearby animal hospital and shelter detection, emergency rescue assistance, GPS-based location tracking, cloud database management, and instant notifications.
- Explored AI-assisted modules, Firebase cloud services, and mobile application technologies to improve animal rescue and welfare services.

Authors: Hritik Sharma, Utkarsh Chauhan, Vishesh Kumar, Sagar Kumar

INTERNSHIPS & CERTIFICATIONS

Fresher

Web Development Intern – InternPe | Remote | 1 Month | 2024

Python Development Intern – TechnoHack Edu Solution | Remote | 1 Month | 2025

EDUCATION

Master of Computer Applications (MCA)- 2026

Quantum University, Uttarakhand / Percentage: 76.60%

Bachelor of Computer Applications (BCA)- 2024

Kumaun University, Uttarakhand / Percentage: 72.01%

Intermediate (12th) - 2019

- Uttarakhand Board – 52.20%

High School (10th) - 2017

- Uttarakhand Board – 63.00%

ADDITIONAL SKILLS

- Social Media Management
- Graphic Design (figma , canva)
- Voice Dubbing & Content Creation
- Basic Video Editing (Capcut)
